尼奥-火星上的生命

Kab NEIOH ~ Life On Mars

November 8

Friends Of Earth!

You Live With Diversity On Your Beloved Planet With Many Races, Cultures And Sizes Of Humans.

Many Of You Have Wondered About The Planet Mars And What Kinds Of Life Forms Live Here!

There Are Photos Now That Have Clearly Shown You Structures With Entrances That Have Been Designed With Intent.

There Are Many Beings Living Beneath The Surface As Well As Races Of Beings That Live Separately And Above The Surface. Just As Some On Earth, These Beings Do Not Socialize With Others And Stay To Themselves. They Are Very Different In Nature And Activities. We Will Begin With One Race That Is Very Different In Body Form From Others.

This Race Is Known As STEO. They Live Underground And Stay Completely To Themselves. They Stand On Two Legs But Their Body Is Much Like An Insect. They Use 4 Other Appendages As They Stand, To Carry Bits Of Minerals, Rocks And Water Held In Their Mouth As They Surface For Food. There Are Many Pools Of Water On The Surface As Moisture Builds In The Atmosphere And Briefly Streams In A Dark Green Color In The Area. There Are Very High Temperatures In Some Areas And Ice In Others. Much Of The Surface Is Dry With Lots Of Rocks And Debris. There Are Plants That Can Survive In All Temperatures. These Are Consumed By The Beings Above Ground.

Another Race You Might Want To Know About Are Called BLAKEE. They Have 2 Arms And 2 Legs With Webbed Fingers. They Are Red In Color With A Rough Skin Texture. They Have Black Eyes That Are Slanted, A Narrow Nose With 2 Slits And A Tiny Circle Shaped Mouth. They Live On Water And Vegetation. They Feel Love And Pain But They Have Chosen To Remain On The Planet And Not Communicate With Others. They Procreate And Live Thousands Of Years. When Their Body Form Dies, They Incarnate Again Into The Race Very Quickly.

There Are Many More Races With Names And Descriptions Which Would Be Very Strange To You. But Understanding That Life Exists In All Places, Know In Truth That There Are Life Forms Throughout The Cosmos That Would Be Either Beautiful Or Horrific Looking To You! Some Beings Live In Oneness While Others Have Always Chosen Duality. Many Enjoy Travel While Others Never Leave Their Home.

In Many Ways, You Might Identify With The Many Choices And Ways Of Living. Knowing You Might Fear Many Of These Races, Understand They Would Be Much More Fearful Of You!

If You Take Anything From This Information, Allow It To Bring You To An Understanding Of Earth. Maybe Judge Less And Love More! Maybe Try Tolerance And Negotiations Without War.

On Earth, All Beings Sleep, Eat And Procreate. Everyone Wants To Be Loved!

Send Light To All Created Beings In All Places Of Creation!

BE LOVE! EN EEKE MAI EA! I Love You So! NEIOH NEIOH ~ 火星上的生命

老钉译, 2022年11月8日

地球的朋友们!

你们生活在你们心爱的星球上,有许多种族、文化和体型的人类。

你们中的许多人都想知道火星的情况,以及那里生活着什么样的生命形式。

现在有一些照片向你们清楚地展示了带有入口的结构,这些结构的设计是有目的的。

有许多生物生活在火星表面之下,也有一些种族单独生活在火星表面之上。就像地球上的一些生命一样,这些生命不与他人交往,而是独处。他们的本质和活动都非常不同。我们将从一个在身体形态上与其他种族非常不同的种族开始。

这个种族被称为STEO 他们生活在地下,完全是自成一体。他们用两条腿站立,但他们的身体很像一只昆虫。他们在站立时使用其他4个附肢,并在出来觅食时,用它们帮助嘴叼小片矿物、岩石和水。火星表面有许多水潭,因为大气中的水分在不断积累,到处流淌着深绿色的小溪。一些地区温度很高,另一些地区有冰。大部分的表面是干燥的,有很多岩石和碎片。有一些植物可以在所有温度下生存。这些植物被地面上的生物所食用。

另一个你可能想知道的种族被称为BLAKEE,他们有两只手臂和两条腿,手指上有蹼。他们是红色的,有粗糙的皮肤纹理。它们有黑色的斜眼,狭窄的鼻子上有两条裂缝,嘴巴呈小圆圈状。它们以水和植物为生。他们能感受到爱和痛苦,但他们选择留在这个星球上,不与他人交流。它们会繁殖并活上数千年。当他们的身体形态死亡时,他们很快会再次在同种族中化身。

还有许多种族的名字和描述对你来说非常奇怪。但了解到生命存在于所有地方,就会知道在整个宇宙中,有一些生命形式对你来说要么是美丽的,要么是可怕的。一些生命生活在一体之中,而另一些生命则总是选择二元性。许多人喜欢旅行,而另一些人则从未离开过他们的家。

在许多方面,你可能会认同许多选择和生活方式。知道你可能会惧怕许多这样的种族,要明 白他们会更害怕你

如果你从这些信息中得到什么,请允许它把你带到对地球的理解。也许可以少些评判,多些 爱! 也许可以尝试宽容和谈判,而不是战争。

在地球上, 所有的生命都要睡觉、吃饭和生育。每个人都希望被爱!

向造物主所创造的所有生命发送光!

变成爱! en eeke mai ea! 我是如此爱你!
